

Pipeline Replacement Project

Project map, affected streets highlighted in red (above)

Byron Lane and Thorne Place, Fanwood

Elizabethtown Gas provides safe and reliable natural gas service to more than 283,000 customers across northern New Jersey. To ensure that safety and reliability are maintained, we have already made significant enhancements to portions of our natural gas distribution system and we plan to continue by replacing aging underground infrastructure with new, more modern pipes in coming years.

The work in this neighborhood is part of the company's ongoing pipeline replacement program. As part of this project, we will replace aging gas mains with new polyethylene plastic that is more durable and less expensive to maintain. Gas meters will also be relocated from the inside of homes and businesses to the outside, and service lines replaced. Relocating the gas meter outside provides enhanced safety and reliability, easier access to gas meters in the event of an emergency or natural disaster (such as Hurricane Sandy), and easier access to gas meters to perform meter maintenance tasks without the need for customers to be present.

This modernization program allows us to make necessary upgrades to our natural gas pipeline system with the expectation of increased safety, reliability and lower operating costs, while supporting the local economy by providing jobs. Perhaps best of all, we're ensuring families and business owners have ready access to America's most abundant, environmentally friendly fuel...today and tomorrow.

Elizabethtown Gas | 520 Green Lane | Union, NJ 07083

STREETS DIRECTLY AFFECTED

FANWOOD

Byron Lane Stewart Place
Farley Avenue Thorne Place

PROJECT SCOPE

Replacing and upgrading natural gas facilities including:

- Replacing aging gas mains with pipe made of a material that is more durable and less expensive to maintain
- Relocating gas meters from inside homes and businesses to outside, and replacing service lines from the gas main in the street to the premises

OUR COMMITMENT

We take great care in implementing construction practices that limit disturbances to homeowners and businesses and we understand your time is valuable. We appreciate your understanding and thank you for allowing us to provide you with safe and reliable natural gas service.
